

I am more than my sport, I am a student who is interested in learning, and is always open to trying something new. My hobbies include reading, painting, and working out and I love finding new things to do on top of those. I am a sister, daughter, and friend who values the people close to her and tries to spend as much time as she can with them. I am someone who loves a story, whether it's in a book, tv show, or movie. I love finding new books to read or shows to watch, and get hooked very easily. I am someone who loves to talk to others and have deep conversations. I love getting to know people on a deeper level and sharing more of myself with them. I am an advocate for mental health, and someone who is passionate about helping others know more about its importance. I am also interested in learning psychology and neuroscience, and want to understand more about the human mind. I am someone who tries to understand more about my own mind to help myself and others in any way I can.

• I am someone who loves Nutrition, going to the gym, and spending quality time with my friends and family. I am also a great listener. I am someone who talks a lot, however I love listening to other people whether it be about their hobbies, opinions, or just what they are passionate about. As I stated before, I really love nutrition. In order to be the best version of myself I like to eat foods that not only fuel my body physically, but also mentally. I tend to be an optimistic person I need to feel my best! 😊
